

12th grade Sociology Syllabus

Teacher: Mrs. Grazia de Bettaglio
gbettaglio@colegiomaya.edu.sv

Sociology is an introductory course to explore the study of different groups and their interests within a society. Focus will be placed on the issues most relevant to student's lives.

In our class students will

- Conduct their own research by successfully using the scientific method.
- Identify sociological issues in El Salvador and their causes.
- Analyze worldwide culture, cultural norms and conventions.
- Evaluate problems in society based on sociological perspective.
- Improve writing and research skills.
- Understand the theoretical framework through which sociologists study social problems.

Students are not only expected to turn in quality work on time , but to also participate in classroom discussions showing an understanding of concepts discussed in class.

Personal growth is assured through the philosophical foundations and the school's Life Ahead Methodology. The Life Ahead Methodology promotes autonomy, organization, responsibility, and social skills. Its major goal is to produce self-reliant individuals who will assume an ever greater responsibility for their own learning.
